Perma-Guard Corp.  
O.W. Condit  
Distributor

Dear Sir:

In September of 1966 I purchased my first case of Fossil Flour from you and would like to tell you that I am very well satisfied with this product.

I have been raising greyhounds for nearly twenty years and have used various kinds of drugs and other means to maintain the health of these dogs and even then there were problems.

I mix one pound of Fossil Flour in the ration for sixty dogs of all ages.

There has been a marked improvement in the health and condition of all dogs. Of particular interest is a litter of pups that have received this ration. They have been in excellent health, have good appetites, and have made good growth. At four months of age I wormed them for a check test, but there were no visible signs of worms of any kind.

Evidence of this kind of good news to any greyhound owner.

Sincerely,

*Richard A. Helmy Jr.*
