Aransas Pass, Tx. 78336

Dear Deane,

The City of Port Aransas uses large quantities of PERMA GUARD that your company supplies to us for control of Fire Ants on various City Properties.

The reason we chose your product is the fact that it is environmentally safe for use in the areas of the park and other places where people are in abundance.

PERMA GUARD works very well and is of great value to the City.

Sincerely,

A handwritten signature in cursive script, appearing to read "George Swank".

George Swank
