

Activated Diatomaceous Earth with its high silica content augmented with Humic material improves the performance of all types of fertilizers which in turn **stimulates vigorous root growth**. Soil enhanced with **HUMI-GROW®** Soil Conditioner shows **increased bacterial activity**.

Plants become **more efficient with all nutrients including water**. Plants **produce greater yields** and have shown **better stability under varying soil pH conditions**, especially for clay and sandy soils.

**Ingredients:**

Diatomaceous earth, fresh water type, 85% .  
Granulated Humates 15%  
Total 100%

**Product of USA**

Net Weight: **40lbs/ 18.2kg**

**Humi-Grow®**

**Soil Conditioner**

all natural ingredients

**PERMA-GUARD™**

Pure Diatomaceous Earth Products

Continuous use of **HUMI-GROW®** Soil Conditioner also results in **increased resistance to wind and water erosion** and **reduced leaching of NPK from cultivated areas**.

**Application rates :**

Apply along the seeded strips, if possible, at the rate of 40 lbs per acre or mixed with NPK fertilizers at the rate of 5 lbs for each 100 lbs of fertilizer. Work product into soil.

Lawns: Water lawn after application to incorporate product into the lawn.

Potting Soil: Add 10 lbs for each 100 lbs of potting soil. Mix well.

Mix with mulch , in flower beds and around trees at 2 lbs for every 40lbs

Potted Plants: 1 teaspoon for small containers, 1 tablespoon for large pots.
